- Internal Auditor
- Judge and Sponsor of Steve Golding Award for final year Engineering Students (ex)
- 30 years in construction industry
- Public Speaker 20 years
- Coach (qualified) 20 years
- Mentor 20 years

Becky has a varied background in engineering, construction, project and operational management. Her 30 years in these roles on infrastructure and construction projects has provided a wide application of skills and experience in all aspects of project management. She is also a qualified CPPM.

Becky has a passion for efficient project management systems, compliance and controls. Within her more recent roles, she has also managed the Risk, HSE, QA, Enviro and Security in conjunction with appropriate field managers. Her ability to integrate risk management into day to day procedures and work plans allows finer control and more immediate and appropriate response to issues when required.

Becky also managed and delivered a 2 day workshop for approximately 100 local and international Project Management students and young practitioners on behalf of AIPM and IPMA in 2011 and is still in demand for her expertise in professional event project management.

Becky has designed and implemented FSC and ISO accredited systems in short times frames and has over 20 years experience in the maintenance of PM and Compliance ISO accredited management systems.

She is a regular guest speaker at many industry events, women's events, and is widely known as an inspirational speaker.
